

Talk Title

One line of context

Ethan Wong

September 24, 2026

Argonne National Laboratory is a
U.S. Department of Energy laboratory
managed by UChicago Argonne, LLC.

Argonne Leadership
Computing Facility

U.S. DEPARTMENT
of ENERGY

Argonne National Laboratory is a
U.S. Department of Energy laboratory
managed by UChicago Argonne, LLC.

Section Break

Argonne National Laboratory is a
U.S. Department of Energy laboratory
managed by UChicago Argonne, LLC.

**Argonne Leadership
Computing Facility**

Title, Subtitle and Bullets

The subtitle is the pptx's light-blue sentence-case line

- First-level bullet: white text on the navy master
- A second bullet with **bold**, *italic* and monospace runs
 - Second-level bullet, rendered as an en dash
 - Another second-level bullet

Title and Subtitle Only

No body placeholder: use this for a single statement or a section lead-in

Title and Subtitle: 2 Column

Each column gets its own heading and body

Left column

- Bullets, text or a table on the left
- Columns are equal width

Right column

- The right-hand column
- Same heading and body styles

Title and Subtitle: 3 Column

Swap the argument to `sescolumns` for 3, 4 or 5

First

Text or bullets.

Second

Text or bullets.

Third

Text or bullets.

Title and Subtitle: 4 Column

One

Narrow columns
suit short labels or
numbers.

Two

Text or bullets.

Three

Text or bullets.

Four

Text or bullets.

Title and Subtitle: 5 Column

One	Two	Three	Four	Five
Short.	Short.	Short.	Short.	Short.

Title and Subtitle: 4 Block Big Idea

Two panels per row, each with its own heading

Big idea one

One or two sentences of supporting text.

Big idea two

One or two sentences of supporting text.

Big idea three

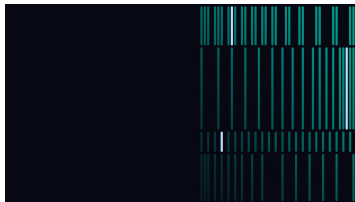

One or two sentences of supporting text.

Big idea four

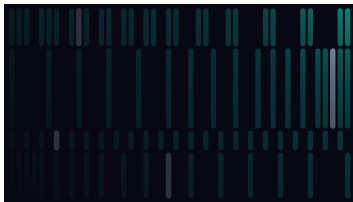

One or two sentences of supporting text.

Title and Subtitle: 3 Column Photo

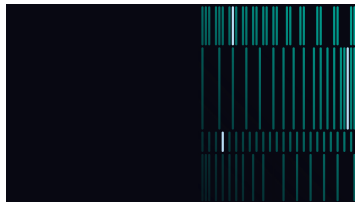

Each column is a picture with a caption underneath

• Caption for the first picture.

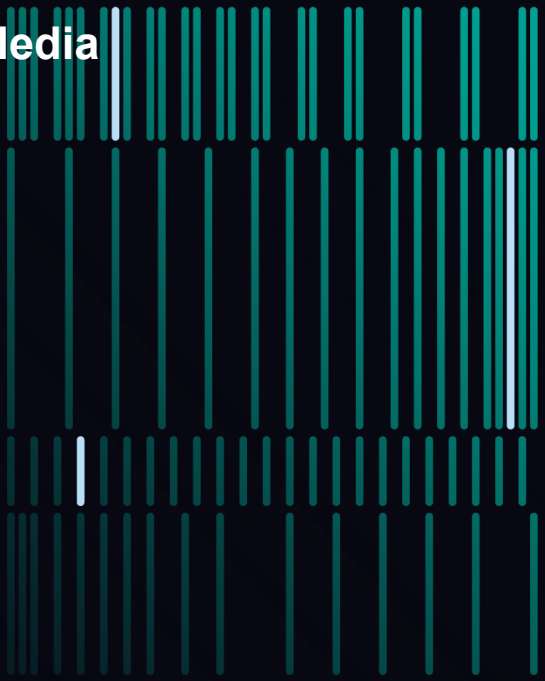

• Caption for the second.

• Caption for the third.

Custom Layout: Full-Bleed Media

Code

minted panels take the panel colours from the theme

```
# a shell sample  
echo "hello"
```

Using This Template

The same API works in any deck:

```
\usetheme[sectionpages]{sesalcf}
```

- `\title, \subtitle, \author, \date` → title page
- `\section{...}` → section page, with the `sectionpages` option
- `\begin{frame}{Title}\framesubtitle{...}` → title and subtitle
- `seslightframe` (title via `\frametitle`) → the white slide family
- `sescolumns{n}, \sescolumn{head}{body}` → 2–5 column layouts
- `\sespanel{head}{body}` → big-idea panels
- `sesphotos{n}, \sesphoto{file}{caption}` → photo columns
- `\sesfullbleed{file}` → full-bleed media
